

Q1 Please tell us about your priorities for Cambridge. To do so, please rank order these seven categories. You can either drag and drop the categories into the order you prefer, putting your highest priority at the top of the list, or choose your rank for each category (with 1 being the highest) from the drop down list next to each category. (While education is important to us all, it is controlled by the county and therefore is not included in this survey focused on city goals.) Thank you for valuable input in moving our city forward!
