Dear Readers:

Below is an email from the Mid Shore Community Mediation Center (MSCMC) about the need for volunteer mediators. For those of us in Dorchester County this is especially important as MSCMC provides mediation services for youth in our public school system as well as mediation to help resolve disputes in our community. As I am sure you have read and heard, all public schools have had multiple challenges with regard to behavior issues since COVID-19 has been with us. As you can see below, training will be provided. This is a great resource for us but needs our support in making it work for more people here.

Steve

Subject: Become a Community Mediator!

Good afternoon,

Mid Shore Community Mediation Center is seeking volunteers to join our team of Community Mediators! Members of our community, just like you, are who make our work possible. 91% of our mediators are volunteers, dedicating personal time to support their neighbors through difficult conversations.

To become a Community Mediator, no experience is necessary - we provide all the training needed. For more information about us, mediation and the training check out this [article](#). You can also find more information on our [website](#).

Our next Basic Mediation Training is happening on weekends in August and September 2022. Please forward this to anyone you think may be interested. To apply or for more information, contact 410-820-5553 or email info@midshoremiation.org.

In Community

in Community,
Jessica Basom
Operations and Volunteer Coordinator
