

Planning Commission Notes 7-11-2023 – Submitted by Judd Vickers

Old Business:

1. 2017-013 Egypt Road Solar Field – review of preliminary plan deferred.

Discussion:

1. Airpax Road – Container storage facility at the end of the road, behind the Tractor Supply store. Planning Commission heard discussion from Chesapeake Container systems related to the storage activity on the property and how security and safety measures would be provided and implemented. This is a permitted use, and the site is approximately 3 acres in size.

From June meeting:

- *Three contiguous properties, consisting of several acres on Airpax Road, located behind Tractor Supply, will be used for storage containers. This area is not visible from US50, and this is a permitted use as is considered warehousing. Planning Commission requested the property owner come forward at the July meeting to discuss.*
2. RAR – locating grain silos in rear parking lot – discussion deferred.
